

ENERGY-SAVING PERFORMANCE CONTRACTING

UP TO 20-YEAR TERM

TEN's technical and financial expertise in delivering energy efficiency solutions reduces timelines, streamlines costs, and maximizes value so customers can implement needed upgrades to critical systems.

KEY FEATURES

Turnkey delivery to audit, design, procure, project manage, commission and deliver all phases of the project.

Best value design-build-finance model accelerates energy efficiency and eliminates funding challenges.

Bundle capital projects with savings-generating energy conservation measures to create strategic, holistic projects.

Flexibility to use trusted qualified contractors and products with highly competitive pricing.

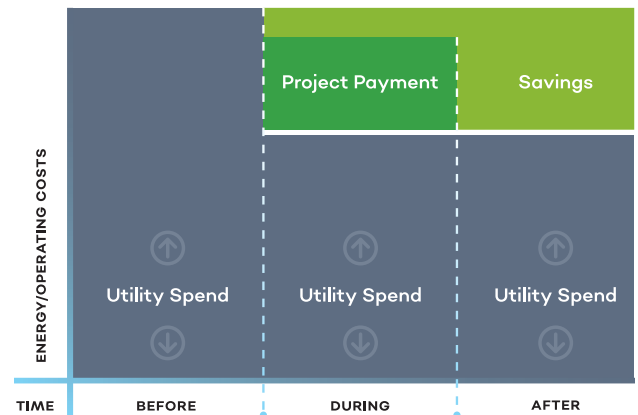

Eliminates cost overruns and change orders.

Project cost offset by Guaranteed Savings.

Our team members bundle your priority projects with cost-effective financing to modernize your buildings and address increasingly urgent deferred maintenance.
